What do you like about this instructor's teaching methods?

the fact that there wasnt final exams you were tested on how well you completed the assigned work and that showed if you knew how to complete accounting tasks.

You can do all the work and be done with the class.

This is a fairly easy class, so not a lot of teaching is required. He has made it clear that he is available for questions, and let's us know when he will not be available for any reason.

He is always there for you and he is very understanding.

The instructor adequate feed back and planned and organized material relating to the class.

It is presented very well

Mr. Bryan always gave immediate feedback on my accomplishment in the class.

he is great. answers question promptly.

I love the way thiis instructor teaches. He lets us do things at our own pace, and gives us continuous feed back. Sometimes in a matter of minutes.

I like the fact that the assignments are given upfront so that we can work at our own pace.

I'm currently taking three different online classes right now. I would definitely say without a doubt that Dr. Bryan's method of teaching is by far the best. While the questions on the tests/quizzes are not always worded the best in my opinion, he certainly does a good job of answering questions quickly and making sure the student isn't afraid of asking. I've also noticed that he doesn't hound people about all their work not getting done right away. I really do appreciate the fact that you respect that some of us may have busy schedules right now and give us reasonable deadlines to get the work done by rather than sending us an email harrassing us about it every week.

He does a good job of keeping in touch with the class and providing updates. This is my first online course and I would consider taking other classes in this format.

I really enjoy Dr,. Bryan's teaching methods. Very clear and concise!

The instructor was very in touch with his students. I like receiving the emails regarding what I scored and how I was doing in the course. This info is very helpful.

He gives you every tool needed to understand the course.

#### Question 20

#### Essay

What do you dislike, if anything, about this instructor's teaching methods?

there is nothing I dislike

He takes time out to help his wife with their new baby ( just kidding)

there wasnt anything.

I dislike the webpage and would prefer using the BB instead but I am sure that it is because my other online classes use BB.

I do not like that the instructor does not post our grades to the "My Grades" section of Blackboard. Although he emails us the results of our tests, I do not like having to go through every email that I've received from him to figure out my grade. I should be able to track my progress toward my final grade quickly and easily, just as in my other classes. In addition, I don't feel it's necessary for him to send us an email with the progress of the class as a whole-ex. the number of students in the class who completed their work and what the grades were for each and every assignment. If he updated our grades on Blackboard, we would be able to see the class averages ourselves without having to read through a long email.

I also do not like that the instructor hasn't updated his syllabus in a user-friendly manner. The outdated portions have a red line through them and are replaced with new text after the old. It's frustrating to have to read through so much unnecessary information.

Nothing

This instructor is very helpful, and I feel freely to ask him questions.

I would only suggest that you make the discussion board available so that students can communicate with each other. It usually will get more students involved. You could always use email but discussion board is more general.

Please update our grades on Blackboard regularly and delete any outdated information from the syllabus.

The only thing that could be done differently is the instructor putting our grades in "My Grades". He does however send us emails telling us our point totals and how well we're doing constantly. I sometimes erase emails like that by accident and when i'm ready to review my grades, I have to re-email him. But, I really have no complaints. If his method is easier for him and helps him to get our grades to us as quickly as he does, i'm all for it.

Use BB versus webpage.

For me the challenge in this class is how it is online. I've never taken online classes before, and part of the challenge for me is that I learn by hearing the lectures. It's hard for me to have to teach myself everything and have the discipline to get the work done in a timely manner. I really am enjoying this course, and am quite pleased with the way it is being taught.
