I liked the web page for his class, it showed that he is computer literate. In past experience some teachers do not show that they can handle an online class because their computer skills are not that great. For example, they don't understand compatibility issues with certain programs and blackboard or homework managers through the publisher websites. I liked how you outlined each assignment and what was expected of us at what time. I liked that I was able to work at my own pace as long as the assignments were done at a certain time frame. I liked that when the deadline came near there was a reminder email, it makes me feel that you actually cared about each student and not throw it out there and say "if you don't do it...O' well". I have recommended you to all my friends for future classes. :)

Everything, mainly encouraging.

I am most impressed with the pace yourself way of learning. In my experience when I have to meet quick turnaround deadlines I do not excel to my full potential. I will feel rushed and overwhelmed, especially when taking other courses. I learned much and really enjoyed using Peachtree software.

The instructor allows enough time to complete your assignment and allows you to continue and finish the course on the ability of the student.

I like the fact that everything was so planned and communicated to the students at the beginning of the course. I also like that he tried to instill life-lessons in the students by talking about not waiting till the last minute to do the assignments because you never know what life will bring. I think that the life lesson is a greater thing to be learned than then accounting work. Because this was an online course, the student was mainly teaching themselves, but I felt that Dr. Bryan was available if there were any problems or questions. I also appreciated the opportunity for extra credit work.

I really liked how the work was clearly layed out in the beginning for each student to do with it what they needed - when they needed. They deadlines were extremely reasonable. It helped to take a lot of the stress off of the other many classes and deadlines I had to think about.

They fact that it was up to the individual to complete things was nice. It did not feel the constant babysitting feeling I get from some of the other online courses I have taken. I guess what I am trying to say is, I like being able to just - get the work done -

Instructors encouraging comments were nice also

I really enjoyed that the instructors gives multiple chapters at once to complete and gives a few weeks to complete instead of an assignment each week. It gives adult students a bit more freedom that is very helpful when they have other things going on one week.

Everything was well laid out so I could work at my own pace. There was more than adequate time to get the assignments done and flexibility which helps someone like me who is a working single parent. He was always accessible and very helpful all the way through the semester.

Only a suggestion...I know it's the student's responsibility to check email for updates, but my work is demanding and then I come home and have personal and professional emails to sort through. If something could be posted on Blackboard even just to say, check your email for an important message that would be great! Again...I may totally be the exception.

I enjoyed the course and the set-up.

Very fair Professor who understand that life happens. Would love to be able to have him for another class and would definitely recommend him to other students.

Mike thank you so much for your encouragment throughout this process. I had the issue with the overlook quiz which you forgave and then the drama with my software malfunction...you were so understanding and went out of your way to help me succeed. Thank you! Hope I get to take another class where you are the instructor.

I would definitely recommend others to take this course.

Sorry it took me so long to fill this out ! : )

Merry Christmas
