**Question 19: Essay**

What do you like about this instructor's teaching methods?

Unanswered Responses

2

Given Answers

The instructor was easy to reach. Responses to questions were clear, concise and always arrived in a timely manner. I was made to feel like that there was never a silly question.

I like the how the course schedule is available at the start of the class with clear deadlines for all assignments. I also like the updates on how the rest of the class preformed on the tests.

For me this type of class is great. What i liked the most was the way he would give you a certain amount of test due by a certain time period. this made it easy for me to be able to take my time and space out the test equally. It also gave me time to ask the instructor any questions with time for him to respond.

It was easy to get the work done at my convenience, and I found the instructor understanding when an issue arose.

It's very straight-forward, it's clear what is to be done and how to do the assignments.

Everything was organized from the beginning. The schedule was available immediately and was easy to follow. Students were updated with new information in a timely manner. I felt Professor Bryan cared about the students and wanted us to succeed. He took the time to analyze areas where he thought some of us were having problems and to send out additional information to the class in those areas. He also sent reminders about due dates. I found his approach to be very helpful and encouraging. Overall, I enjoyed the class and learned from it. Thank you.

If there was a question to ask the instructor was quick to respond to emails. The grading system was set up well and everything was explained to the students about what needed to be done and by what date.

Professor Bryan, made the class really easy. He had the schedule of assignment so that there was plenty of time to work on them and get familiar with the program. I liked that he had the test so that you could print a hard copy and go over everything prior to taking it online it made taking test a little more relaxed.

Amanda Matlock

Dr. Bryan was very easy to approach with questions and always went above and beyond to explain the concepts being covered. He also checked in regularly to make sure we were progressing well in this online class. Overall, I thought it was a great experience.

He is detail oriented as well as talented in showing us the big picture.

### Question 20: Essay

What do you dislike, if anything, about this instructor's teaching methods?

Unanswered Responses

3

Given Answers

I found that the quizzes were based mostly on scanning through the text and looking for answers, which did not adequately test my knowledge of the computer program, just my ability to find it in the text. (i.e What was the name of the customer, which state was the business based in....etc.)

i did not dislike any of the class.

I did not have any problems.

I was very satisfied with the instructors teaching methods.

N/A

None

### Question 21: Essay

What changes, if any, would you like this instructor to make in this course?

## Unanswered Responses

3

## Given Answers

Some of the start here section had some kind of error that looked like this <!--[if !supportLists]-->1. <!--[endif]--> I think it has something to do with how info is saved in word and how it converts. Not a big deal. Just thought you might want to take it out of there. It is a little distracting but not terribly so.

None

Do not have the quizzes rely so heavily on extraneous fact checking.

none the class was preformed great.

N/A

I would make no changes.

I truly enjoyed this class and would take another class that is taught by Professor Bryan.

I feel I have an adequate grasp of the subject matter at the end of this course. If not for having the wrong textbook at the beginning, and having 1 75% quiz throwing off my average because of that mix up, I hope to bring up my grade by three points so I can get an A instead of a B. :)

Great class, I would recommend this teacher to anybody and everybody that needs to take Computerized Accounting.

Thank you very much. I did learn from this course and Professor Bryan was great.

OK
