I enjoy how this class is designed to allow you time to actually work with the software versus just reading and doing what the text tells you to do.

What i like but was unable to take advantage of was the ability offered to come set in on his classroom instruction even though we were signed up for a online class. He also offered office time instruction as well as online collaberation. I was doing pretty well due to a well designed and easy to follow textbook so i did not require all the help offered.

Gave enough time to complete assignments.

I feel that the instructor showed consideration for the student and our time.

Having other classes the instructor did not overwhelm us with two and three lengthy assignments in a week.

Using more practical questions in the exam that a

person would encounter in real life.

I like the course schedule and the flexibility of assignments and how they are grouped.

Makes clear expectations for material that will be graded.

The flexibility of the class assignments was extremely helpful for me during this time because I happened to go through a separation and things begin to hit me left and right, so this semester became the hardest semester for me.

the method is hands on and move along at the pace you need.

I love I had plenty of time to do the chapter exams instead of weekly deadlines.

The syllabus was well organized and easy to understand and follow. The unit chapters were grouped together appropriately. Emails were encouraging and just often enough to serve as a friendly reminder.

The course was broken up. All the assignments were not due every week you could work at your own pace along with the other classes you are taking as well as working and taking care of family. I really enjoyed not having to worry about sitting down and having the quizzes due every weekend like other classes. I also appreciate the fact that you gave us an outline an stuck to it. If we wanted to move ahead we could and if we wanted to stay on course we could.

There is nothing i disliked.

None

Nothing, everything was great!

I really did not have any dislikes.

Nothing

i do not dislike anything.

n/a

A dislike I did not have.

**Question 21: Essay**

What changes, if any, would you like this instructor to make in this course?

Given Answers

There are nochanges.

There aren't any changes I would make.

The only thing i would change is, if there is going

to be online collaboration, the day should probably be scheduled for a Sunday night. Any other night will leave some students in a disadvantage.

None

I would not make any for the online class.

Nothing

could have used some visual presentations to help make some of the difficult assignments, easier to understand or navigate through.

I thought that some of the book work should be incorporated into the grading scale.

Offer more examples such as more videos/youtube of example transactions.

None

I really enjoyed this class. I also appreciate the fact that you were aware that we had quizzes due and they were available.

I did enjoy learning about the Sage 50 accounting system and how to use it. I really enjoying the way the instructor planned and organized the assignments.

With having other classes made it not stressful since you knew well in advance what was expected.

Thanks for the course. I truly enjoyed it. Would you have any objection to being added to my professional contact list? I would love to have another person to bounce accounting questions off of every now and again.

overall great experience although I wish an extra credit assignment was in place with my grade being a 89.1%

Grat class, great textbook, great Professor. Thanks for the instruction.
