Mr. Bryan is a very good instructor. If you have any problems he is willing to work with you until you understand the material. The same goes for if you think that you submitted the wrong assignment or submitted the wrong answers, he understands that mistakes happen and allows you to correct the issues and resubmit your answers without any problems. I enjoyed taking this course, and would recommend this instructor to anyone who needs to take it in the future.

This semester was the first time I had taken any online classes. I was very pleased with the detailed instructions and expectations. The lessons were easy to follow and complete and I always felt I could ask questions. I enjoyed the class and instructor.

Dr. Bryan is very kind and very helpful, so I could enjoy this class.

Every thing are well explained in the course documents. Gives students plenty of time to turn in the test and project.

His teaching method is very helpful for me and I understood my homeworks assignments.

Always willing to help out.

All of his instructions are comprehensible. He inform students about due dates for assignments. He shows the students how well they are doing in that class.

I like the fact that the course is self-paced and that the instructor has good communication with the students--VERY important for online classes.

Very well planned and organized.

Teaching methods are wonderful, although it was an online course when I needed help he answered me in a timely matter and he helped me trace back to my problem and offered his help further if I couldn't find the problem.

Mr. Bryan is straight forward. We knew what to expect and what was expected of us from the beginning of the course, and he did not sway from it. He also gives reminders of due dates and pushes you to complete the tasks on time. He also shows concern for his students.

This was an online class and I felt that the course outline and the objectives were clearly communicated via e-mail and his course webpage. I was very pleased with the timely responses to my questions and the scores for my assignments.

This is online course and Dr. Bryan is always very prompt in answering questions and sending my grades to me. This has been a very smooth running online course. Although I am not in class, I feel a part of a class and feel in touch with the professor.

He provides enough time for full time workers and people with families to do thier assignments.

He is very informative. He is understanding

The instructor responded quickly to all emails.

What do you dislike, if anything, about this instructor's teaching methods?

I did not like having to go to the instructors website to get the information. Opening the the welcome letter or the other link took a while and it seemed like a waste of time since the blackboard is set up to handle all of the information on the website without waiting for the link to open and then clicking on the instructor website and waiting for that to open. Sometimes I just want to double check something *real quick* but you can't do that when you have to wait for the links to open so you can go to another link to get the information you want.

What changes, if any, would you like this instructor to make in this course?

I might recommend requiring printouts from the Project 1. I'm not sure how that would work--a print to file feature, perhaps? That way you know the students actually completed the project with the software ... and if the student made a mistake in one place that made all the other answers off, it would be easy to see that and give partial credit if all else was done properly.

I would make better use of the blackboard.

I took many courses on line and I'm used of checking my grades and progress thru the black board under Tools-Grade. I think it will be a good idea if the instructor will do the same because it's easy to see how the student is doing in the course. A student can easily see what quiz or test he missed. Other than that he is an excellent online instructor. I hope other instructors are like him.

none

More time to finish the chapters before the deadline pass, like one to two more weeks.

I cannot think of any changes I would like to see.

More chapters from the book could be assigned, not sure if its mandatory for the number of chapters that he assigned, but as we got deeper in the chapters teh course got interesting.

It would be easier if the tests and quizzes are posted to BB from the beginning of the semester vice the middle.

This is the first online course I have ever taken because I was afraid that it would be harder to learn and understand but I throughly enjoyed taking Mr. Bryan's ACC215 class online. I think he is a great teacher and the course setup was great! I will definately be taking more courses online when possible.

Thanks Mr, Bryan.

This is my style of learning the online Computerized Accounting.

I enjoyed the class. Thanks!

Great class!

no

I liked the fact that you has other sponsored links at the bottom of your website. There were links to review accounting and Microsoft office software. I thought that was a thoughtful touch and I used the one for the Micrsoft office so they were very helpful. Thank you.

Have a great summer Mr. Bryan!

Good Work

I believe that Dr. Bryan is one of the best instructors.

He's a great professor, I love his teaching methods and I wish more professors were like him.
