Felt comfortable about asking questions. The introduction part he made helped it feel more comfortable. Glad he sent e-mails reminding the deadlines for tests and quizzes.

This professor is great!! He made his self available for problems and answered all emails within 24 hours.

Provided the information that was needed, open communication and the reassurance that the task at hand could be accomplish with a favorable outcome by staying on top of the lesson plan.

we have enough time to finish assignments.

I loved this class. With online courses I like the way that you can work ahead when you have a free weekend and get the next couple of weeks done when you may be busy with work during the week.

The instructor was clear and concise in all instructions and objectives of the course. He sincerely cared about each student's progress in the class.

This was my first online ccourse and he was able and did answer any all my question

I enjoyed this class. This is an online course which students choose to continue their education while having the flexibility than a classroom instructed class. The instructor has provided this flexibility by providing setting the expectations and timeline at the beginning of the course. The instructor was very clear and prompt with posting the grades to allow the students to keep up with their progress. Also, the instructor provided opportunity to improve with extra credit work. I would recommend this class to other students.

Sends reminders. Had the entire semester of assigments laid out and we could work at our own leisure.

I liked that the assignments are posted at the beginning of the class and students can work at their own pace, but still have due dates. I also liked how the grading system is explained so there' no quessing what the grade is.

I appreciate how the class was structured and that I was able to complete the course requirements at my own pace, rather than just having weekly assignments. I would also like to thank you for not making us post random comments on the discussion board.

Very organized. Clearly stated goals. Helpful reminders.

None that I can see

I think reports for the completed chapters should be required as part of the grade. I think since this is computerized accounting, in addition to end of chapter tests, complete and correct reports would be a helpful indicator that that students understand the software and the accounting principles.

Nothing everything is great and enough time to finish assignments.
